

BIG TROPICAL STORM IN SOUTH PASSES INLAND

NEW ORLEANS, Sept. 22.—The tropical hurricane last night hit the Louisiana coast, striking with full force at a point close to Morgan City, Dr. M. J. Cline, district forecaster of the local weather bureau, announced today.

WASHINGTON, Sept. 22.—The center of the tropical hurricane passed inland west of the Mississippi river during last night, and is now over Northern Louisiana, the Weather Bureau announced early today. The bureau said the storm would diminish in intensity. Warnings on the Gulf coast were ordered down at 8:30 a. m.

GULF COAST VESSELS SCURRY FOR SHELTER. NEW ORLEANS, Sept. 22.—Shipping of every description is lying in port along the Gulf coast and vessels are scurrying for shelter today as the fore-runner of the Gulf storm began lashing the waters along the coast, with the prospect of the full brunt of the storm striking this afternoon or tonight.

Although the indications were that the storm's center would strike the coast west of New Orleans, it is expected that all Gulf ports will feel the effects of the hurricane. Tides began swelling last night and falling barometers foretold dangers which were quickly wireless, telephoned and telegraphed to outlying points.

Inhabitants along the west coast are today hurrying to high ground. Household goods, store stocks and livestock are being rushed to places believed safe from destruction by wind and water.

Hurricane warnings have been sent out as far east as Pensacola and westward to Brownsville, Texas.

RESIDENTS QUIT "DANGER ZONE." GALVESTON, Texas, Sept. 22.—The Texas Gulf coast was waiting today for the tropical hurricane, reported sweeping this way, to strike.

The fore-runner of the storm was believed indicated in reports to railroads here of washouts and property damage early today in Louisiana.

Final preparations for the storm were completed early today following an all-night session of residents of the "danger zone." Shipping was believed safe in harbors and warnings had reached all points along the Gulf.

Latest reports here indicated the storm was veering eastward and might skip this section.

Chauffeur's Receipt Leads to \$35,000
CHICAGO, Sept. 22.—A chauffeur's signature on a carter's receipt, given to Mrs. J. M. Hixson, wife of a wealthy resident of Los Angeles, Cal., resulted today in the return of jewels valued at \$35,000 to Mrs. Hixson.

Dorsky was taken to the detective bureau and asked for his name. The signature was identical with that on the receipt given to Mrs. Hixson. Dorsky confessed to finding the jewels in his cab and today they were taken from their hiding place in a drawer at Dorsky's home.

'Depth of His Love Proved When He Shot Her,' She Says

LOS ANGELES, Sept. 22.—A partial reversal in her ideas, concerning love, expressed today by Lorraine Gladys Barnes, 23-year-old divorcee, who on August 23 was shot by Harrison M. Deal, who then turned the revolver on himself will lead her to the marriage altar with Deal within another month she announced today.

Deal is awaiting trial on an attempt to murder the girl. Miss Barnes who is now recovered from the wound caused by Deal's revolver has gone to Deal's attorney and asked him to have Deal's murder attempt trial set over another month. Before that time elapses she expects to marry him, she said.

With the announcement that the woman to a willingness to marry her sweetheart came a strange story of a plan she is said to have for expediting her marriage.

One unhappy marriage is said to have inspired in her a determination never to marry again until she had experienced a trial marriage with her prospective husband long enough to know that they were suited to each other before they actually went through the ceremony.

Although it is said she was deeply in love with Deal after her acquaintance began, she refused to marry him in spite of his pleas.

They lived together for several months, it is said, and then the woman said that she would not marry him and planned to leave.

It was a short time after Miss Barnes had left in that Deal is alleged to have gone to her home and enacted the tragedy as the result of which both he and the girl nearly died from their wounds.

REVERSAL OF IDEAS. Her new willingness to marry the man whose love drove him to try to kill her when she sought to end their experimental marriage as unsuccessful indicates a reversal of Miss Barnes' love idealism. In a weakened condition at the county hospital when it was thought she would not recover herself.

"Does he say he shot me because he loved me? Is it love when a man will knock a woman down and kick her after she is down? Is it love when he will heap upon her vile curses because she will not give in to him, because she is trying to free herself?"

With less than a month elapsed since the tragedy, Miss Barnes is now reported to have told Deal's attorney that she is anxious to marry him, but has brought her a new realization of the depth of her sweetheart's love.

Deal now has a wife and small daughter living at 513 Lyons street. His wife is said to be a woman of good character. Deal is 24 years old and is fully recovered from the suicidal attempt made after he sought to kill his sweetheart.

TIE-UP IN SCHOOL WORK THREATENS

BERKELEY, Sept. 22.—That construction of the new Lincoln school in South Berkeley may be tied up by a strike of bricklayers was the intimation given to the board of education yesterday by George W. Addison, representing the Bricklayers' Union of Alameda county.

Addison appeared before the board to ask that the contractors on the building be forced to place an inspector of brick work on the job. The contractors, Meally and Collins, have refused to obey the union edict as a result of an agreement of the General Contractors' Association of Berkeley.

Architect William H. Hays and Walter Hatfield declared that the board of education could take no part in the controversy, stating that the contractors were answerable to the school board in that they agreed to do a certain amount of work in a specified time and that the school officials had no interest as to how the job was accomplished.

"In the event of a tie-up in the work, what action would the board then take?" asked Addison. The board is protected in that it will not interfere with the work itself and charge it to the contractor, answered Hatfield.

The action over the employment of an inspector at the school, which is the only all-brick structure being erected in this city, is out part of a controversy between bricklayers and contractors throughout the bay section, declared the school architect.

While not announcing that a strike would be called, Addison intimated that difficulties may arise as a result of the board's refusal to order the employment of an inspector.

NUDE MASCLINE SALOME DODGES POLICE SEARCH
ALAMEDA, Sept. 22.—A Salome dancing nude man kept the residents along San Jose avenue in a ferment last night. He was first seen by Mrs. E. Libbey of 2127 San Jose avenue. She was standing in front of her home when the man, clothed in a hat and a pair of leather leggings and brandishing a long whip approached.

"Want to see me do the Salome dance?" he inquired going through a series of postures on the sidewalk.

Mrs. Libbey screamed and ran into the house where she telephoned the police department. The man ambled up the avenue and soon more telephone calls came to the police department. Officer Louis Senter, Andrew Peterson and William Pries were hurried to the neighborhood. When they arrived, however, the man was not to be seen. A thorough search of the neighborhood also failed to give any clue. This is the second time within a week that a nude man has been seen in the district.

Restore Fast Trains, Mayor Asks Santa Fe
Carrying out the request of the Oakland Merchants' Exchange and going a little further, Mayor John L. Davis today addressed to the Santa Fe a communication requesting that its fast trains, the "Saint" and "Angel," discontinued because of the war, be restored to the Oakland run.

The mayor also includes a plea that the California Limited be restored on the run from Oakland to Chicago.

"The present schedule of this train between Los Angeles and Chicago," says Davis, "tends to the disadvantage of our city. The volume of business calls for several sections of the California Limited between Los Angeles and Chicago and Los Angeles. It would seem to be a good move on the part of your company to run one of these sections through as a solid train to Oakland."

Library Branch at Thousand Oaks Opens
A branch county library has been opened in the new school building at Solano and Colusa avenues. Thousand Oaks branch of the county library has been held as yet, but the library has been in operation since Monday afternoon.

With this one the supervisors have established three branches throughout the county, the central headquarters being at the hall of records in Oakland. Miss Mary L. Barnby is the county librarian, and Mrs. M. E. Cole has been placed in charge of the Thousand Oaks branch. It occupies a room in the new community school building arranged for that purpose when the structure was erected. It is to be open from 2 to 5 p. m. and 7 to 9 p. m. every day except Friday and Sunday. There are 700 books for the start and these will be increased continuously.

Jacksonville to Get Bond Theft Suspects
SAN FRANCISCO, Sept. 22.—Jan Smith, 25 years old, and his 16-year-old companion, Charles Guthray, who have been held by the police pending an investigation into their possession of \$10,000 in bonds, were turned over today to the authorities of Jacksonville, Florida, for connection with a burglary there of a private residence when \$45,000 in bonds were taken and \$6000 in jewelry.

According to advices received by the Jacksonville police from the home of R. P. Davis, a day before the bonds were robbed of the valuable named Smith, in company with the Guthray boy, was arrested here several days ago in a south of Market street rooming house and \$18,000 in bonds were found in their room behind a washstand.

Hood's Sarsaparilla Makes Food Taste Good
Creates an appetite, aids digestion, purifies the blood, and thus relieves scrofula, catarrh, the pains and aches of rheumatism and gives strength to the whole system.

Nearly 50 years' phenomenal sales tell the story of the great merit and success of Hood's Sarsaparilla. It is just the medicine you need now. Hood's Pills help—make cathartic.

LYNCH TO PASS ON CABARET LAW

A new city ordinance defining cabarets and imposing a quarterly license of \$50 upon all cabarets serving soft drinks, was referred to Chief of Police Lynch today by Commissioner Morse preparatory to being introduced before the Council.

The proposed cabaret law would bring additional revenue to the city, it is pointed out.

Before the days of prohibition, cabarets paid big liquor licenses and all sorts of city and State taxes for operating. But when prohibition came the cabarets were no longer burdened with liquor licenses and it is said, thrived on a soft drink regime.

"We believe there should be no sort of license for the cabaret vend-ing soft drinks," said Morse. "The first draft of the proposed ordinance is, of course, tentative, and the Chief of Police and other officials may have suggestions to make."

MAIL SERVICE RECORD.
LOS ANGELES, Sept. 22.—Francis M. Swift, of Iron-horse, has just come on the retired list of the railway mail service after completing a term of thirty-seven years and thirty-seven months. For twenty-one years he has been clerk in charge of the Cape with a traveling record of nearly 2,000,000 miles.

Lad Plans to Rob House Of Food, Goes to Sleep

BERKELEY, Sept. 22.—Impelled by hunger, Lloyd Garrison, a wanderer from Los Angeles, today evolved a melodramatic plot calculated to win him food and fortune. He wrote a scenario for real life, set the characters working and retired behind a rock in Cranchmont to bide his time. This is what happened:

In the middle of the morning, while Mrs. Catherine Ahrens, 1705 San Lorenzo avenue, was flicking the dust from the library table there came a violent ringing on the front doorbell. Mrs. Ahrens answered it and found shoved into the hall a square note which said:

"Your husband is seriously injured and is calling you. He is at 967 Los Angeles avenue. Dr. L. Home."

"P. S.—This note is sent by my 6-year-old son, Dr. H."

Mrs. Ahrens communicated with her husband, found him to be safe and sound, and then telephoned the police who told her there was no such number on Los Angeles avenue and no such doctor as "Dr. Home," and who said that the note would be on hand to solve the mystery.

Behind a rock and sneezing in blissful ignorance of the excitement he had caused, Lloyd Garrison of Los Angeles was dreaming of wealth and brain sandwiches when the police shook him to a consciousness of reality.

Lad Plans to Rob House Of Food, Goes to Sleep

According to them he admitted the whole plot and said that it was his plan, as soon as Mrs. Ahrens rushed forth to aid her stricken husband, to dart into her pantry and help himself. He said he had not eaten for thirty hours and had walked out from Oakland.

If it had not been for the fact that he was so sleepy, the police say, Garrison would be a burglar. As he is only 17 years old and was badly in need of food he is not to be prosecuted.

Alameda Elks Hold Dance Friday Night
ALAMEDA, Sept. 22.—The Alameda Elks are to hold their first dance of the season Friday night. The affair will be informal and will be followed by a midnight supper. The committee having the affair in charge consists of F. J. Groll, chairman; E. R. Simonsen, G. W. Hall, H. Strauss and L. Weichert. Russell Franks' jazz orchestra will furnish the music.

Methodists Oppose Irish Interference
Methodists of the California conference took a stand against "Anglo-Irish" interference in British handling of the Irish question in adopting the report of their resolutions committee shortly before adjournment. The same resolutions declared for "a league of nations."

Coughs and Colds
Catarrh, Croup, Sore Throat, Banished By Hyomei. The germs of catarrh do not exist in the same atmosphere with antiseptic Hyomei (pronounce it High-o-mee). Breathe Hyomei and relief from catarrh, coughs, sore throat or cold will come in two minutes.

Breathe Hyomei and that stomach straining hawking in the morning will quickly disappear. Breathe Hyomei and kill the catarrh germs; stop the discharge of mucus and prevent cramps from forming in the nose.

Breathe Hyomei for a few minutes each day and rid yourself of common catarrh. Breathe Hyomei—give it faithful trial and then, if you are not satisfied, you can have your money back. Hyomei is sold by The Owl Drug Company and druggists everywhere.

MI-ONA Ends indigestion

It relieves stomach misery, sour stomach, belching and all stomach diseases or money back. Large box of tablets at all druggists in all towns.

Millinery
Bungalow Aprons at \$1.59
Made of good quality percales, Nicely finished and trimmed at \$1.59

[illegible][illegible][illegible]

duce to you Mr. Neale to give the lecture follows:

"When John G. Paton went as a missionary to the New Hebrides some of islands some years ago he found the natives to be savages. He made his home on the island of Aniwa. Here he found no spring or well, the natives relying on the rainfall for their water supply. As the rain was very limited during more than half the year, drinking water became very scarce and the natives had long periods, with consequent suffering. Doctor Paton determined to dig a well. When the natives learned his purpose they ridiculed him, saying that water did not come from the earth but from the sky. They even believed that he had gone insane and refused him any aid. For days and weeks he labored with no success, but received only ridicule. Finally the ground at the bottom of the hole became moist. He summoned the native chiefs, dug a little deeper, and was rewarded with a strong flow of clear, fresh water which he offered to the unbelieving populace. Now no one need ever be athirst on the island of Aniwa.

"Near the middle of the last century a high-minded gentleman of New Zealand, who was called John Ruskin, was looking at all right-mindedness is nothing more nor less than God manifesting the fullness of true being in the human body and mind.

MEAN THE EXPRESSION OF MIND

"But we only know Mind as we know the ideas which express it and the height of the true man. The natives relying on the rainfall to recognize the mental mind, that state of consciousness which most clearly expresses the ideas of the true Mind or God. Ruskin has given an illuminating definition of man in Scotch and English in 1702, where she says 'He is the compound being of God, including all right ideas'.

"Perhaps to the true man as an idea seems to you rather vague. Men have thought of man in terms of matter for so long that the inclination is to think of him as a combination of material elements joined, in a way yet unknown, with mind. But if you will try to go for the basis of the material sense of man and try to regard him only from the standpoint of an expression of true intelligence you will see that the term idea must fittingly express his nature and relationship to the parent Mind.

"Outside if you will why it is that the world has so much of a heavy, gloomy, and gloomy atmosphere. We must learn to fight mentally, the peace of body and mind as persistently as our soldiers have fought physically for peace among human governments. The real and final battle-ground of human progress is the consciousness of individual man.

"The mental attitude which it is necessary for one to adopt in the practice of Christian Science is indicated in some measure by the mental attitude which an actor must assume in order to be successful in his part. He must be willing to put off without reservation his everyday sense of selfhood, think and act only as the character he is representing. If he tries to be half his ordinary self and half the character he is depicting he will only be a failure. There must be a complete surrender in thought of the one selfhood and a complete acceptance of the other. He must think, more, act, and be only the character he is representing.

"So it is when we use Christian Science we must abandon the old concept of selfhood and put our whole heart into thinking and living as God's man. In place of selfishness we must be unselfish and kind, for hate we must express humility. For impurity we must think purely. A good feeling, may seem to be a small thing, but it is the key to the door of the soul. The thing to do in order to judge it rightly is to get it separated from you so that you may see what its real nature is. Men have been mentally holding evil in various phases so close to themselves, so close to their sense of selfhood, that they have failed to discern its real nature. It has often seemed as big as a mountain, though really it is no more than a feather. Christian Science inserts a mental wedge between man and his concept of evil, and little by little separates it from him until his perspective is changed so that he can see it for what it is—a false claim about his true being—and handle it on that basis. As with every enemy, something must be known of the methods and modes of evil before it can be combated successfully. The last great offensive of our enemies in the recent war was checked, the initiative wrested from them never to be lost by us, on the day when we knew exactly their plans of attack and so were prepared to meet them. It is this valuable information that Christian Science is giving to mankind with regard to the common enemy—the evil mind.

"Let us suppose that we have here a photograph. On it is a record. We

England, Mary Baker Eddy, found herself mentally alone on a desert isle, as it were, where there appeared to be no water to quench her thirst for health and happiness. She was the child of Puritan parents, and had grown to womanhood among the hills and valleys of New Hampshire—the Granite State—possessing a rare personal charm, culture, and affection for the best things of life. She had ever shown an unusual love for the Bible teachings and early in life accepted implicitly its wonderful promises of health. With the years of womanhood came sorrow, separation from dear ones, and prolonged trial. From every trial she arose the more resolutely in search of that certain law of healing which she believed a correct understanding of God would bring. In this search the theories of allopathy, or regular medicine, were explored in vain, then hydropathy, a step away from mere drugs toward a more mental form of healing, and afterwards hydropathy.

"Mrs. Eddy recognized after years of investigation and experiment that this certain law of healing was to be found in any of the accepted systems, and she then turned away

small group of forward looking state-men—the peace delegates at Paris. It is not because of anything physical in their weight, their features, or the color of their hair. The material is wholly subordinated. What men honor in them is the mental man, the individual state of mind, the character which expresses right ideas. In the proportion that they have valued what is right they have struck a responsive chord in the minds of men everywhere, for their brothers are perceptive, though, yet darkly, the true sense of manhood and honoring it. This is in its full unfolding the expression of God in man, accomplished by 'Christ Jesus' and, thus, even as the creature of Mind, is recognized to be simply an individual state of right-mindedness away thinking in accord with God, the true Mind. He is 'the compound idea of God, including all right ideas' (Science and Health, p. 475).

MATERIAL MAN REPUTED.

"Perhaps some of you were taught as children that man was first made from the dust of the ground, others may believe in the theory of material evolution, man evolved from molecule and monkey up to his present state (thought must take the place of every evil thought. Unlike the actor's part this change is not for a moment but for a lifetime. We are putting off the old man of matter, earth and mortality, and are putting on the new man, the real man of God's making, our true selfhood. The point to remember is that we can't play two parts, as the devil is ever trying to get us to do. 'As many as are led by the spirit of God,' says Paul, 'they are the sons of God' (Romans 8:14). We will have to choose between the spirit of God and the spirit of evil.

Now of course we do not get out of the meshes of false material education in a day. But we may begin to emerge gentler from matter into Spirit' (Science and Health, page 35). Is Mrs. Eddy's counsel. The difficulty is that some lay as much emphasis on the gently as they fail to emerge.

REALITY AND UNREALITY.

"Enough has perhaps been said to show that Christian Science sees an entirely different standard than that accepted by the world as to what is real and unreal. It does not accept everything as real just because a claim is made that it is. It is real only as it corresponds to the truth as God has made it. It is but matter talking. Move the sound-making instrument right up to

start the machine and this is what we hear. This is the record of a mortal's thoughts on an autumn morning in 1918. (The record begins.) The health officer says that the epidemic is coming this way and will strike today. I wonder who told him. The paper says it is getting pretty bad in the state next to us. If it comes here I wonder if I will get sick. Those germs are funny creatures, a million on the end of a needle they say. Not much on size but big an appetite it seems. I don't feel so very well this morning. My head and throat don't seem just right. What would happen to the family and the neighbors if I should get it? The newspaper gave four symptoms. I seem to have three. I believe I am getting feverish, that's the fourth. I half believe I'm getting it. Yes, I feel sure I'm getting it. I know I have it. Jehanne, run for the doctor.

"Now my friends remember this is but a phonograph record. Here is a mechanical instrument giving out certain sounds. They do not frighten us because we see very plainly that there is nothing in what this material mechanism does that we need fear. It is but matter talking. Move the sound-making instrument right up to

on the 1st of each month.

from the material and sensual to the spiritual and divine. She dug deeper and deeper beneath the crust of materiality, through, and beyond the strata of material ignorance, false education, and prejudice, and in a direction from which those who had said no good results could come. They like the natives of Anahu believed that no relief was to be found apart from the generally accepted, though wholly inadequate, methods.

"Not for days and weeks but for years this God-loving woman pursued her quest (directed and aided) until she has written of Christ-Jesus so it may be repeated of her, for she plunged beneath the material surface of things, and found the spiritual cause" (Science and Health, page 46) making available the stream of spiritual knowledge for all mankind. It was in 1886 that Mrs. Eddy overcame serious injuries through reliance on spiritual as wholly apart from material, law and became convinced of the present availability of this law for suffering humanity. For three years thereafter she studied the Scriptures most diligently and from them derived a fuller understanding of this spiritual law of life and its applicability to every need of man. The Cause of Man, DISCLOSURE, 1907.

which is told us. Only that is regarded as real in Christian Science which can be attributed to God, for since He is the only real cause there can be no real effort from any other cause. Judged from this standard one can see why it is that all evil, discord, sin, and disease are regarded by Christian Science to be unreal. They have no relation with God or His perfect creation. The effort of all mankind to be rid of evil shows that we instinctively repudiate it in our thought as being unnatural and so in the last analysis unreal. Christian Science does not say that sin, sickness, and discord are not very real to the material sense, but it does say that judged in the light of the spiritual sense of being which overrules and transcends material sense they are seen as false claims about true life and existence. Nor does Christian Science ignore such conditions. Rather does it show men how to destroy them, for being negative and the they are to be overcome by replacing them in thought with the concept of what is divinely true. He who believes that evil is real and that God sent it has no business at all trying to get rid of it.

of consecrated study and research were given to the world in 1875 through the Christian Science text-book, 'Science and Health with Key to the Scriptures,' which has become, next to the Bible on which it is founded, the most widely read book of all human creatures with feathered wings but as the good thoughts sent of God, which the pessimist said were given charge over man to keep him in all his ways.

MORTAL CONCEPT OF MAN REPUTED BY THE MIND.
 Isaiah sought to turn the thought of spiritual manhood in some such way as this, 'I repudiate and deny these lying suggestions of evil, for man is not susceptible to disease or disease. God the infinite good Mind, is the source and fountain of my life. I do not live in or by material sense or material law, for my true being is spiritual. In God's crea-

Think of the greatest artists
and you think of the Victrola

And, similarly, when you think of the Victrola there comes to your mind instinctively the names, the faces, the costumes of all the world's truly great artists. The reason is that the Victrola is their "other self" going freely into the homes of the world or following the wanderer into the waste places of the earth.

Robbery of Home Is Admitted By Boarder

They Lopez pleaded guilty to grand larceny in connection with the robbery of the home of Elizabeth Therman, 2155 San Antonio Avenue, Alameda, and his case was referred to the probation officer. He is under \$2000 bond.

Charles Turner, who says he is a graduate of the University of Idaho, pleaded not guilty to a charge of robbing the home of Mrs. Henrietta Porter, 3915 Fourteenth Avenue, of a chest of silver and clothing. His trial was set for October 11.

HOT LUNCHES IN SCHOOLS SOUGHT

BERKELEY, Sept. 22.—Pupils at the John Muir, Hawthorne, Columbus and Franklin schools will be served hot lunches in the immediate future as a result of plans made yesterday by the board of education.

Mrs. Carrie H. Gibbs, member of the board named to investigate the feasibility of installing lunch rooms, reported a gift of equipment at the Hawthorne school from the Berkeley Federation of Mothers and of \$100 from the same source for the installation of lunch rooms at the John Muir school. The John Muir school have volunteered to provide labor and food in return for the use of equipment in the domestic science room at the school.

That an expenditure of \$475 was needed to equip the proposed lunch rooms was the report of Mrs. Gibbs. Provisions sufficient to cover the cost of material could be charged to make the school lunch rooms self-supporting, she said. Members of the board expressed approval of the plan and referred the matter to Assistant Superintendent of Schools M. C. James for final recommendation.

Woman Made Health Official in Berkeley

BERKELEY, Sept. 22.—Mary Leland Shaw, former superintendent of the Berkeley dispensary, was named supervisor of health visitors in the Berkeley schools yesterday by the board of education. Miss Shaw will serve without pay from the school department, being remunerated by the Berkeley Red Cross.

The resignation of Miss Josephine Hughes as supervisor of health visitors was accepted yesterday by the board and Mrs. Mary L. Shaw named in her place. Mrs. Shaw is a graduate of the University of California and has served without remuneration.

Mr. and Mrs. Donald McIntosh were granted a leave of absence until the close of the present year from their positions as custodians of the McKinley school.

ITALIAN SENATOR DIES

NAPLES, Sept. 22.—Senator Ginestrelli, a famous Italian sportsman, is dead, according to announcement here.

MARRIAGE LICENSES

The following marriage licenses were issued today:

John B. Hart, aged 25, Berkeley, and Mary Stebbins, aged 20, Oakland.

Frank Mahoney, 21, San Francisco, and Evelyn McCloy, 21, Oakland.

Joseph E. Rudee, 25, and Teressa Hoppe, 25, both of Stockton.

Frank H. Herwick, 24, and Lauretta Fischer, 15, both of Oakland.

Charles Stanley King, 31, and Florence Ingrid McDowell, 23, both of Berkeley.

Leo J. Wilson, 28, and Ruth Moore, 15, both of Oakland.

Henry J. Nelson, 23, Oakland, and Clara J. Nelson, 20, Oakland.

William M. Goodson, 25, and Grace W. Webster, 25, both of Oakland.

Clarence D. Norris, 23, and Mabel C. Anderson, 20, both of Oakland.

DIVORCES FILED

YEEN—To the wife of Quan Yeen, Sept. 15, a son.

DEATHS

ARENDE—In Pleasanton, September 21, 1920, Rose Arendt, wife of the late Harris Arendt and dearly beloved mother of Jerome H. Arendt and A. L. Arendt, sister of Mrs. Lena Kutz, a native of Bavaria, aged 71 years 2 months 12 days.

BOYD—In this city, Sept. 20, 1920, Rev. Boyd, beloved son of Mattie and the late William Boyd, loving brother of Mrs. Grace Dougherty, Mrs. Leslie Lower and Ralph Boyd, a native of Illinois, aged 35 years and 10 months.

Remains at the parlors of Freeman & Co., 2650 Telegraph Ave., Oakland, until 2 p. m. Thursday, September 23, at 2 p. m. at the parlors of the James Taylor Co., northeast corner of 14th and Jefferson sts., Oakland, Cal., to which friends are invited.

DORAN—In Oakland, September 21, 1920, Eugene Doran, beloved son of Jerry Doran and the late Margaret Doran and brother of the late John and Francis Doran, a native of Oakland, aged 25 years 9 months 13 days.

Friends are respectfully invited to attend the funeral Thursday, September 23, at 9 o'clock from the parlors of John Quinn, 2325 Broadway, St. Andrew's church, where mass will be said for the repose of his soul at 9 o'clock.

Interment St. Mary's Cemetery.

DAY—In Oakland, September 21, 1920, Mary Helen Day, daughter of Dr. Thomas A. and Sarah H. Day, and sister of Roscoe A. Jr. and Barbara Day, a native of Oakland, aged 3 years 2 months 12 days.

Funeral and interment private.

DAVIS—In Oakland, September 21, 1920, James, beloved husband of the late Mary Davis, loving father of William F. Mary E. and James H. Davis, Carrie W. Jacks and the late Robert F. Davis, grandfather of Robert F. and James W. Davis, and William V. Jacks, a native of Ireland, aged 53 years 4 months 4 days.

Friends and acquaintances are respectfully invited to attend the funeral Thursday, September 23, at 2 p. m. from his late residence, 8264 Claremont Ave., Oakland, Interment Mount View Cemetery.

HARRIS—In Oakland, September 21, 1920, Mrs. Helen Harris, beloved mother of Mrs. Joe Harris, James E. Harris, Mrs. M. C. Huddleston, John H. Harris, Charles H. Harris, and Grace E. Harris, a native of Canada.

Notice of funeral hereafter. Remains at the chapel of Grant D. Miller, 212 E. 14th st.

SCHULTZ—In Arizona, September 20, Lillian, beloved wife of J. H. Schultze, devoted mother of Russell, Irvin, Della and Lowell, daughter of Thomas and Lydia Hoff, sister of Stella, Lillian, and Lillian, Julia Guyer, Mattie Palmer, Leonard and Arthur Hett, and Ruby Lane and the late Maude Hoff.

Funeral services at Berkeley Undertaking Parlors, 2201 Bancroft, Berkeley, Thursday, Sept. 23, at 2 p. m.

THOMAS—In this city, September 21, 1920, John, dearly beloved husband of the late Lillian Thomas, a loving father of Stella, Lillian, a member of I. O. O. F. and U. M. W. C. Lodge of Hayward, a native of Arizona, died at 53 years 11 months and 6 days.

Friends and acquaintances are respectfully invited to attend the funeral September 24 at 9 o'clock a. m. from his late home at Washington St. to St. John's church, where requiem high mass will be celebrated for the repose of his soul commencing at 8:30 a. m.

Interment St. Joseph's Cemetery, Hayward.

TOWNE—An anniversary requiem high mass for the late Catherine Towne, on Thursday, Sept. 23, 9:30 a. m. at St. Bernard's church, 620 Ave. and 11th Street.

YOUNG—In Hitherford, San Bernardino Co., Cal., September 21, 1920, Seward Young, dearly beloved husband of Katherine Young, devoted father of Seward Young Jr., loving son of Mrs. Eleanor and Dr. Leonard Young and brother of Austin Young, Mrs. M. A. Murphy, Nellie Eason and Melville Young, a native of Michigan.

Friends and acquaintances are respectfully invited to attend the funeral services Friday, September 24, 1920, at 2 o'clock p. m. from the chapel of Grant D. Miller, 212 E. Fourteenth st., corner of 23rd Ave., Oakland.

King Says Europe Depends on America

RIO JANEIRO, Sept. 22.—Europe's dependence on the new world was referred to here by King Albert of Belgium when he replied to an address of welcome delivered at a joint session of congress. Speaking of conditions in Europe, he said: "Yesterday we were your creditors; today we are your debtors. We depend on you and are counting on you to assist us in the terrible crisis."

1500 ACRES BURN

BEND, Ore., Sept. 22.—Central Oregon's biggest timber fire this season, a 1500-acre blaze in the Fox Butte yellow pine belt, to the south of here, is now under control. H. L. Plumb, a supervisor of the Giffels national forest announced.

FARALYZED BY HAZING

EMPORIA, Kan., Sept. 22.—Andy McCoy of Wichita, Kan., a freshman in the College of Emporia here, is paralyzed below the waist as a result, it is said, of hazing by upper classmen. He was struck with a paddle.

Because of the Death of Mr. Jacob Goldberg THE STORES OF GOLDBERG, BOWEN & CO. Will Be Closed Thursday, Sept. 23

Morale in the Industrial Army

Morale among the men in the ranks of the armies of peace, the legions of industrial workers, is as important as it is in the armies of war.

The men of the "Y" who built high morale for the fighters during the Great War, are now dedicating themselves to the task of improving the morale of Oakland's industrial workers. And they are succeeding, as the enthusiastic praise of the men and the hearty endorsement of their employers indicate.

During the past year the "Y" Industrial Department has provided weekly programs consisting of recreation, practical talks, entertainments, etc., for over 9700 men in 32 different industrial plants in Oakland.

One of the purposes of the present fund campaign of the Y. M. C. A. in Oakland is directed to securing money to continue this work.

The use of lard in cooking again proved old-fashioned and expensive

ANIMAL fat soaks up in the food when you cook with it. This is not only wasteful, but it makes the food greasy and indigestible.

Mazola, the Great American Cooking Oil, is used so hot it cooks the outside of the food quickly. Hence it doesn't soak into the food—to anything near the extent of lard.

This fact was again demonstrated when Mrs. A. Louise Andrea, famous expert in modern cookery, fried 25½ lbs. of fish steaks in 2 lbs. of Mazola. The same amount of lard fried only 16½ lbs.

The fish steaks were cut to an average thickness of one inch.

During the same series of experiments—which can be duplicated by anyone interested—Mrs. Andrea fried 24½ lbs. of potatoes in 2 lbs. of Mazola, while the same amount of lard cooked only 7 lbs. 14 oz. of potatoes.

Also, of doughnuts, Mrs. Andrea fried 208 in 2 lbs. of Mazola, while 2 lbs. of lard fried only 133 doughnuts.

No wonder Mazola is acclaimed by more than seven million housewives, and that it is found universally in the best hotels, clubs and dining cars of leading railroads.

Why salaried men should open a checking account

READY cash in the house, or carried on the person, is easily spent. The amount available after pay day often leads to careless spending. If this money were in the bank, it would not be so handy.

The inclination to leave a little from each pay check in the bank gradually accumulates savings, something not possible without a bank account.

Money carried about the person or left in the house is subject to loss.

Paying bills by check is the safer way. It insures a definite receipt. When paying by cash, the receipt is often lost.

Mailing checks is a time saver. The Post Office delivers the payment.

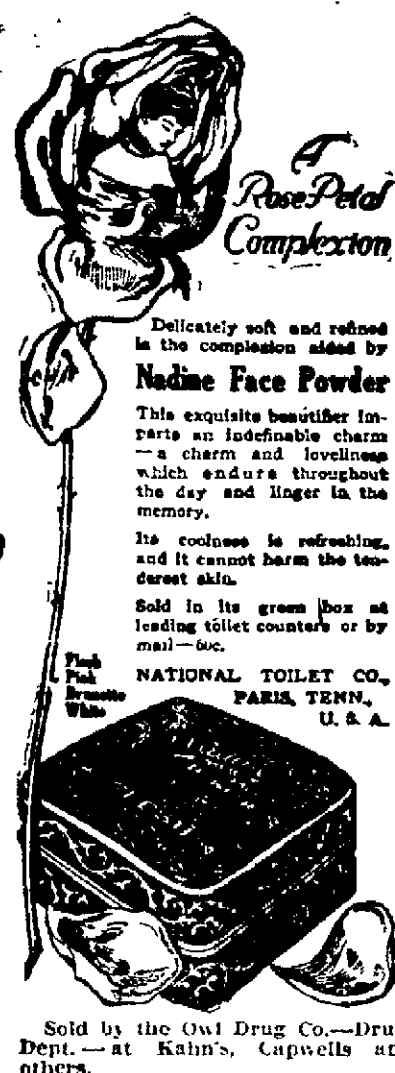

The friendly advice often given by this bank to small depositors, has sometimes been the means by which many a cherished hope has been realized.

The affiliated CENTRAL SAVINGS BANK remains open on Saturday night for the accommodation of those who wish either to deposit, or cash their pay checks.

A Simple Way To Remove Dandruff

There is one sure way that has never failed to remove dandruff at once, and this is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning most of the dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be shiny, lustrous, silky and soft, and look and feel a hundred times better—Advertisement.

Do You Wear Artificial Teeth?

If so it will pay you to investigate this invention of Dr. Schaefert's. It has stood the test of years in Oakland and made good. Here are the advantages:

Does not run over the entire roof of the mouth, has three suction instead of one, improves speech and taste, cool to mouth, it is not cheap or expensive, it makes no difference if you have any teeth of your own or not.

Here is another one of our unsolicited letters from one of our many patients. This letter is so prominent to have her name published. But anyone interested in this invention, interview with her, by calling at Dr. Schaefert's office for her address. Many other letters are on file similar to the following:

Oakland, Cal. Sept. 4th, 1920

Dear Dr. Schaefert:

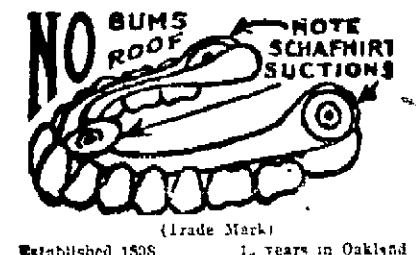

This is the first time in many years of experience with dentists that I have felt like writing a letter of genuine appreciation, for the very good reason that it is the first time I have had anything to be thankful for in the line of satisfactory dental work.

The special suction plate you made for me in June is satisfactory in every way, and this explains why I have not been in your office since then. I began wearing it.

"Corn on the cob in public" has no longer any terrors for me. I can even joke safely and feel sorry for folks who have to wear "false teeth" for my own friends don't know the difference.

Yours very sincerely,

This is the invention of J. B. Schaefert, D. D. S., Bacon building, 2nd floor, Room 277, Hours: 9 to 5.30. Phone Lakeside 24.

SAFETY COUNCIL TO SHOW WORK

WASHINGTON, Sept. 22.—Demonstrations in accident prevention and first aid work are featured in the program of the ninth annual meeting of the National Safety Council, to be held in Milwaukee, September 27 to October 1, which is announced in the American Red Cross bulletin. First aid work will be demonstrated by the Red Cross Bureau of First Aid and the Metal and Mining sections of the National Safety Council.

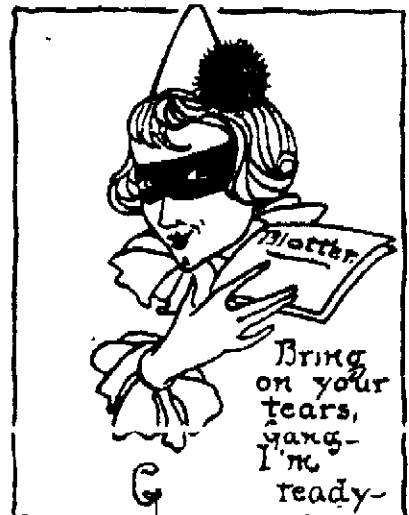

Plans for a demonstration showing the occurrence of an accident and rendering first aid, then an investigation to fix the responsibility, have been made by J. R. Mulligan of the Bethlehem Steel Company, to be enacted by officers representing the Carnegie Steel Company, Midvale Steel and Ordnance Company, Cambria Steel Company and the Red Cross Bureau of First Aid.

A new carbon monoxide detector also will be demonstrated as to its accident prevention and first aid value.

A questionnaire issued by the council, the Bureau of Mines and the Red Cross to ascertain the experience of industrial concerns with first aid endeavors, has been sent out. The answers are expected to form the basis of an effort by the council to standardize various affiliated organizations in first aid work.

City on Geraldine's Shoulder

This is a fine, upstanding world filled with Bar. Intelligence and De Luxe Spirits. I always had a hunch that way and now I'm positively certain of it. Why? Because some of the De Luxe have begun to APPEAL TO ME. Dances, as you will there's nothing gives you a better opinion of another human's brain power than to have him or her think you're fine stuff. Of course, it's supposed to be good taste to deny all that but why be tasteful at the expense of comfort? I like folks and I surely do admire to see 'em liking me back. The more obvious they are about it the better I like it. I don't care how

Bring on your Tears, Mags-I'm Ready

mean, "No flowers, please" signs they stick around my funeral. But while I'm living, I want all the botanists' expressions of appreciation possible. Here's one that is especially welcome and I thank you largely (Sister Mary).

To Geraldine

From Mary B. Kysch, 2002 Virginia St., Berkeley.

Dear Geraldine, I read your "ad." And can't say that it made me glad. Why on your shoulder should folks cry? Let's lean upon it high and dry. And if we've troubles let us smile. For crying never was worth while. It reddens noses, makes eyes watery. And tends to make the audience weary. But if some folks feel any better. Detailing troubles in a letter. It surely will decrease their woe. If, with a smile, they let things go. And don't upon your shoulder cry. For waists and frocks are rather high.

In price, and are not guaranteed. To stand wet weather, indeed! The colors come out in the wash. So Geraldine do not be rash. But ask those anxious to shoot troubles. To yobblers. To load with ammunition dry. And wink and blink the watery eye. Throw out the life line, Geraldine. And from the sea of trouble glean. Those weary ones, before they sink—Slash comfort with the printer's ink. And let them linger with you. Until they're reconstructed stronger—Mary B. Kysch.

Says Nice Things

"An' then she went on and said—'more power to your elbow, sis'ers'—and a lotta other good things that make me mighty glad I'm living in this here town and that there are Marys sticking around. So thanks, Mary—thanks to you all who're beginning to let me in. You're the nicest gang that ever was made since that original rib transfer business and you can run in an' borrow my vacuum cleaner any old time you want."

As for that shoulder of mine—come on, wet or dry, it doesn't matter. Old Man Volstead isn't regulating what I do with my features, and if anyone prefers Geraldine's shoulder wet, wetter. And there'll be more than one per cent kick in the answer, or me an' me'll old typewriter don't know our business. So, move up forward, Gang. Let's hear about it all. If there's an answer we'll try to find it. And if there isn't—well, there's that shoulder with a nice sunny south-east exposure that's yours to camp on whenever you wish. And in case you don't want to talk, 'comfy' and alone," send a stamped and addressed envelope and the world will never know about it.

—Geraldine.

PUT PRINCIPLE FIRST AND DEFEAT PLOT TO DESTROY CIVIL SERVICE.

In another column on this page is printed, with one short paragraph deleted, a letter from City Attorney Hagan of Oakland to THE TRIBUNE with reference to the editorial printed in this news paper September 15, entitled "Scuttlers Move Again," in which the majority clique of the city council were criticized for their latest move to scuttle the civil service system.

The rejected paragraph is a reiteration of charges of crime against a third person which Mr. Hagan in an official and public trial failed to sustain. If the person referred to by indirection were identified the paragraph would be libelous as well as false and THE TRIBUNE will not print it.

Under ordinary circumstances the whole of this communication would not be acceptable because of its bad manners. But since Mr. Hagan desires it, and inasmuch as it portrays in an original and authoritative manner some of the shortcomings of Mr. Hagan, we reproduce it in the hope THE TRIBUNE readers will overlook its coarseness.

Mr. Hagan is quite right when he denies that one of the proposed amendments to the city charter would take out of civil service all the positions recited in the editorial of the 15th. What was correct to say and what it was the intention to say was that the amendment would add to the positions out of civil service—building inspector, wharfinger, license inspector, chemist, market, food and plumbing inspectors and assistant city attorneys—the positions of secretaries to the city commissioners.

THE TRIBUNE's statement on this point was made inadvertently. But the scheme to add the commissioners' secretaries to the non-civil service list is a reprehensible proposal. Every position taken out of civil service marks an advance of the political machine. The amendment should be defeated.

Now as to the political machine which the majority clique, Commissioners Morse, Edwards and Soderberg, have formed, "which, with the assistance of City Attorney Hagan and City Clerk Cummings, already has reached considerable dimensions." Mr. Hagan is fully equipped with information. He has been the legal aid, adviser and defender, as he is now, of the machine clique—Morse, Edwards and Soderberg.

The machine made its first brazen assault when it abolished the position of efficiency accountant in the civil service department and created the position of efficiency expert as a non-civil service job, under the nominal control of the city clerk, but actually under the control of the civil service scuttlers. By this trick the machine obtained the power to coerce every civil service employee in the public service to do its bidding and a device to reward its political friends and servants. The machine revoked powers previously granted the civil service board and necessary to the proper performance of its duties. It formulated the three amendments now under discussion.

Then, among the manifestations of the machine, two non-civil service positions of "efficiency inspectors" (actual duties not publicly known) were created at a salary of \$180 a month. The machine majority deprived the mayor of his official chauffeur, a petty act, and created the job of municipal chauffeur, but the appointment was employed mainly as an extra messenger in the city hall. The city attorney was given an extra so-called clerk who in the day time was employed largely as publicity man or press agent for the city attorney and the civil service scuttlers. Since the appointment by the machine of another assistant in Mr. Hagan's office there has appeared newspaper support for the scheme to deprive public employees of the right of appeal to a non-prejudiced, non-political board for a showing of the causes of their dismissal. A few citizens have seen the machine at work in this connection during the past week.

An efficiency expert under the civil service board is a necessary part of a merit system. Placing the efficiency expert under the control of the majority clique was a serious blow at merit. With this deed enacted, the majority commissioners

have rewarded their friends and strengthened, as they believe, the chance of continuing their control next May. Mr. Hagan has the report of the machine's efficiency expert at his disposal and from that may acquaint himself with the inequalities perpetrated, the rewards bestowed on the faction's favorites.

Under the machine majority of the city council, the police department has been divided into two factions, with the attempt to destroy one and successful efforts to protect the other from penalties for the most serious offenses. There are the cases of the officer who broke into a private business structure and destroyed private property to avenge a personal disappointment, the officer who was convicted in the police court of unwarrantably beating up and injuring a citizen, the officer who while locked up for drunkenness destroyed public property, a felony, and others in which no order of dismissal from the service has issued. The political tactics of the machine have been to discredit the police department, until two and a half years ago one of the most efficient in the country, and to destroy public confidence in it.

Thus does the machine work and the spoils system raise its head.

The city attorney absurdly says the spoils system cannot exist without the power of appointment resting with the elective councilmen. His definition of "spoils" is childishly inadequate, but it does suggest what already has been done in a measure by the machine majority at the city hall.

If the power is given the political office-holders to dismiss public employees without the poor recourse of appeal for a showing of cause ninety percent of the city workers soon will be political henchmen. Dismissals soon will exhaust the eligible lists and the machine then will make "temporary appointments" and so manipulate new civil service lists that only its own selections will be able to get positions.

With the utter disregard for the public's rights and the spirit of the charter which has been exemplified by the machine majority, the city clerk, in case of a recall petition, might remove his office to Redwood Peak if it would add to the inconvenience of the public. Objection was not voiced against the amendment requiring any citizen desiring to sign a recall petition to go to the city clerk's office to do so because the citizen might be required to walk to the twelfth floor of the city hall; that was only a warning afterthought.

The objection is on the ground that to require citizens to go to the office of the city clerk to sign petitions would nullify the recall law. That is what the scuttlers of civil service desire—nullification of the recall. That is why the amendment is bad and why the people should vote against it.

The people of Oakland must oppose all three proposed amendments to the charter on the important principles involved—the principles that the people may lay down regulations and restrictions for the conduct of elective officials, may safeguard the public service against exploitation by the politicians, and that the recall, however many defects revealed in its administration, should not be utterly destroyed by three members of the city council and their servants.

The three proposals will be on the ballot November 2. Vote against the scuttling program and see that your friends vote against it.

BERKELEY PROPOSES A CHANGE.

Berkeley citizens will have on November 13 the opportunity to vote their preference or disapproval of the city manager plan of municipal government. Responding to a petition of citizens, the Berkeley city council has decided to place the proposition on the ballot, and inasmuch as the present city administration apparently is in favor of the change it is expected that it will be ordered.

Given the advantage of competent direction, the city manager plan manifestly possesses superior merit as compared to the older form of government subject to change every two or three years. The freedom of the executive head of the administration from political consideration in the performance of the city's business is a large fundamental advantage from which many benefits spring.

It is well that Berkeley and every other city should remember, however, that special and high ability in the city manager employed is of primary importance. The right man may not be found at once, but persistence will locate him. It is proposed in the amendments to the charter to be voted on that the salary of the Berkeley city manager shall be not more than \$10,000 per annum. The council may in its discretion pay any smaller salary. It is wise that this discretion rest with the council.

Without passing judgment on the details of the plan as will be embodied in the amendments to be submitted at the special election, Berkeley will make no mistake in adopting the city manager system. Notable improvement in government may not be marked at once, but an instrument for improvement will be created. That will be a large gain.

Los Angeles boasts of 329 real estate dealers to every 10,000 of her population. She is far ahead of every other California city in this respect, her nearest competitor being Fresno, but with only sixty per 10,000, Oakland's must yield with only nine. The palm is yielded cheerfully.

NOTES and COMMENT

Candidate Cox's reference to sugar profiteering serves as a reminder that this most heinous of all price-boasting occurred during a Democratic administration; that a solid Democratic section of the country most largely profited from it, and that absolutely nothing has been done about it by the national authorities.

The high school board has three perfectly good looking school men who have no time to move, live or have their heads put in place to put their weary heads. What they desire is a room or two or three where they may do light housekeeping, as they are all excellent cooks and prefer to manufacture their own cats. Any person having such a place will kindly advise some member of the board immediately.—Los Rancos Enterprise.

We are now informed in the news that "the State printing office upheaval may not be ailed." Such outcome has been rather steadily foreshadowed in these columns. Airing involves too many and too much, not in transgression of law but in peccadilloes.

The statistics as to liquor consumption show that last year it was 9.17 gallons per capita, while in 1870 it was but 7.70. And in 1870 it was completely off. Some of the older generation may wonder, in the light of recent privation what they were doing in that happy time.

Governor Cox has now reached that stage where he charges the press with conspiracy to prevent his election by suppressing news that might be favorable to him. Which means, not printing all that is offered in his behalf. So far as has been observed, the press keeps on promulgating everything that happens that is adjudged to be good news. Much that agitates the Cox mind is not high-class information.

The California State band—all Oakland school boys, on a vacation outing in their band truck—gave a concert at the corner of Broadway and Second Tuesday night. They play well, are well directed, and pleasantly tackled everything from rags and jazz to grand opera. Come again, boys—King City Rustler.

One who was injured in the New York bomb explosion has lost no time in beginning a legal action for damages. He has sued the city of New York to recover the sum of \$50,000. There was no legal requirement for him to wait till the nation recovered its breath and the dead were buried, but it would have been more proper for him to wait.

Thefts of liquor continue to be reported. Quantities of loot, in a shape that cannot be handy to conceal, are readily gotten away with. Once the upper stories contained the valuable most desired by burglars. Now cellars are their objective points.

It has been cabled that Wilhelm has written a new will. This is not thrilling news, but it is fully as interesting as were those cables about his sawing stove wood, which persisted a while back.

Editor of the Richmond Record-Herald visits the beach. "Bathing suits have been revised both downward and upward until it is no longer necessary to go to the mountains to see inspiring scenery—Nepenthe Beach is full of it."

The baseball magnates appear to despair of eliminating gamblers, and Ben Johnson of the American League is to ask Congress to see what it can do. Congress can do many things, but there are things more in the line of a policeman's duties.

SPIRIT OF THE STATE PRESS

That the present variety of weather is favorable or unfavorable depends on whether you are a rice farmer or a peach grower. The rice and peach crops are all ready for a hot spell to aid the finishing touches for harvest. If Old Sol's rays do not become more intense within the next few days, the output is going to fall away short of expectations. To the prune raiser the present coolness is okay! Increased warmth would be detrimental. Ideal is the adjective of the prune man describing the prevailing brand of climate.—Woodland Democrat.

A San Francisco man with \$120,000 to his credit died a pauper's death as a charity patient in a New York hospital this week. He was an old man and very feeble, so perhaps dying as a pauper didn't worry him half as much as it must worry some of our sick millionaires who must live like paupers on an empty stomach and a crust of bread.—Stockton Record.

It is quite a tribute to the excellence of California's highways that as an invalid, aged 60, is finding it possible to tour the State by wheel chair in comfort. But it is decidedly risky, too, when we consider the arrogant recklessness of the average speeding motorist.—Palo Alto Times.

Attorney General Palmer is going to find that he poked his probe into a beehive in bringing suit against the Associated Raisin Company. Every raisin grower should be a busy little bee all this week, attending meetings and inspecting pees and musters into the laggards.—Hanford Sentinel.

The management of the California and Hawaiian Sugar Refining Company is preparing to build a tank farm for water storage in the canyon known as Campbell Terrace. According to present plans, there will be three immense steel water tanks placed in the canyon across the State Highway from Community Auditorium, but eventually there will be six tanks and, possibly, more.—Crocket Signal.

Awaiting the Candidate On the Other Front Porch in Ohio

A COURT OFFICIAL'S VIEW.

State of California,
District Court of Appeal,
First Appellate District.
San Francisco, Sept. 20, 1920.
To the Editor of THE TRIBUNE:

The writer has made rather a thorough study of the theory and practice of the "merit system," having spent seventeen years in the Federal Government service, five years of which he acted as "field examiner" (or investigator) for the U. S. Civil Service Commission, and it is with much pleasure that I inform you that I consider your editorial in Saturday night's TRIBUNE one of the best arguments I have ever read in favor of the general "merit system" principle.

Very truly yours,
WILLARD W. SILEA,
5351 Birch Court, Oakland, Cal.

MR. HAGAN'S LETTER.

To the Editor of THE TRIBUNE:
In THE TRIBUNE of September 15th there appeared your editorial entitled "Scuttlers Move Again," which undertakes to criticize three charter amendments proposed by the City Council.

The editorial shows that you are wholly unfamiliar with the provisions of the charter amendments which you presume to criticize.

Numerous positions are to be taken out of civil service, according to your editorial, in order to increase the political patronage and strengthen a political machine. Among the positions enumerated are building inspector, wharfinger, license inspector, chemist, market, food and plumbing inspectors and assistant city attorneys.

This is wholly untrue. These positions are not now and never have been under civil service. Accordingly your statement is absurdly false. A public apology should be made to the city officials named in the editorial and to the people of the city for these false and slanderous statements. The only positions to be removed from civil service under the proposed charter amendments are the commissioners' secretaries. The mayor's secretary at the present time is not in civil service.

Now for the alleged political machine. You state that certain city commissioners named have brought such a political machine into existence and you have connected my name with it. Where does such machine exist at the present time? Disclose full information about it and give the names of those connected with it as far as you can. This throws the doors wide open to you. If you have any evidence of a political machine, you should make it public. The only limitation placed upon you is that you shall confine yourself to the truth, otherwise I shall hold you accountable for false or slanderous statements.

You stated also that the spoils system will be returned again if the right of appeal of civil service employees is abolished. The spoils system is the practice of giving to political favorites the positions of city employees dismissed only for that purpose. Under the charter, with the proposed amendments, it is impossible for department heads to make appointments except with the consent of the Civil Service Board. Not a single appointment to a civil service position can be made otherwise. Please explain how, in your judgment, a spoils system can be inaugurated under these circumstances.

Another of the charter amendments provides that recall petitions shall be signed at the City Clerk's office. This procedure was intended

to eliminate actual misrepresentation and fraud. You have objected to it because "the people most likely would be required to walk to the twelfth floor of the City Hall to sign petitions." Why not strengthen this species of argument by the further objection that the council might move the City Hall to Diamond Canyon or Redwood Peak?

New Mr. Editor you have presumed to criticize publicly city officials without even possessing elementary knowledge of the subject matter. If you had devoted five minutes to reading the proposed charter amendments, you would not have made these false statements. If you had reflected half that time, you would not have indulged in such shallow and unsound argument. If you were a man, you would not have employed the language of the petty custodian politician to discredit city officials whose honesty or integrity has never been questioned except by men of your type.

I ask that you give as much prominence in your paper to this letter as you have to the editorial in question. I am sending copies of this letter to the other local papers for their information.

Yours very truly,
(Signed) H. L. HAGAN,
City Attorney,
Oakland, September 17, 1920.

WASHINGTON'S ADVICE.

European conditions recall very forcibly George Washington's admonitions to his country in his farewell address in which he so earnestly implored his country to avoid particular antipathies and passionate attachments for individual countries and their internal woes. The rights and wrongs of national sentimentalism are so difficult of reasoned judgment by half-informed outsiders, and sentimental partisanship can so easily create more trouble than it assuages.—Los Angeles Times.

ONE SIGN OF PROGRESS.

It is rumored that a good many homebodies have stopped playing bridge and are now playing Bridge.—Springfield Republican.

TODAY 20 YEARS AGO

H. W. Michaels of Alameda San Francisco druggist, is elected treasurer of the National Wholesale Druggists' Association.

Organization meeting for Berkeley Board of Trade is held and membership committee appointed as follows: James L. Barker, H. C. Barlow, C. W. Smith, W. R. Renas, Paul Niechmann, W. R. Dickenson and J. J. Mason.

Allies capture forts at Peking, China, after three-day siege.

WHERE THE OUTSIDE IS THE RIGHT SIDE.

Plains, the United States is fortunate at the moment in being outside the League of Nations, which has such a tremendous job on its hands in troubled Europe. It may yet fail to our lot to share in the settlement of this affair. Our government has definitely refused recognition to the Soviet regime, yet it cannot remain indifferent to a situation that may engulf all Europe. Ambassador Francis predicts the collapse of Lenin in the coming six months, but a lot of other things may happen in that time. Thanks to a Republican Senate, any declaration of war for us that may issue will come from the Congress of the United States, acting under the Constitution, and not from the Council of the League of Nations—Omaha Bee.

THE JESTER

A New Yorker, one of the native born type who rarely leaves the confines of the greater city, took a vacation this summer and went with one of the New York ball clubs on his trip West. He saw many strange sights.
On the return trip the club stopped off at Buffalo and, never having seen Niagara Falls, as is the case with most New Yorkers, the players persuaded their fellow traveler not to miss the opportunity.
He looked at the falls over very carefully and returned to his hotel.
"Well, what do you think of it for a wonderful sight?" asked one of the ball players.
"I say," said the New Yorker without undue enthusiasm, "that she certainly throws a mean leap"—Saturday Evening Post.

On the Grocer

Grocer—Now, my man, the lettuce you brought us last week—very packet of it weighed only fifteen ounces.
Furner's Man—Well, to be sure sir, we'd lost our one-pound weight but we took one of your pound packets home with us.

LECTURE TO TELL WEDDING OF KIN SURVEY RESULTS

BERKELEY, Sept. 22.—New light on the effects of intermarriage between relatives on human intelligence and physical efficiency is expected to be given to science as a result of studies to be undertaken by Dr. Ernest Bryant Hoag, well-known psychiatrist, who was a lecturer in criminology at the University of California summer session this year.

Dr. Hoag, who is also medical director of the Los Angeles Juvenile court, left the southern city Monday for Honolulu to begin his duties. He will make a survey of the mental capacities of the various race mixtures, he will work in Hawaii in connection with the Hawaiian highlands superintendent or public institution.

TO ORGANIZE BUREAU

In addition to making this survey, Dr. Hoag will organize the Hawaiian organization of a bureau of psychological research similar to that in operation by the research department of the Federal Bureau of Investigation.

The psychological work in connection with juvenile offenders consists in determining their mental capacities, and the court in reaching the conclusion to be reached in the method of disposing of various cases where there is evidence of a mental condition that is not normal.

Dr. Hoag, assistant chief, has written several books on his study of the race mixtures on the Hawaiian islands and is known as a student of the Hawaiian language. He has a valuable knowledge of the Hawaiian language and is a student of the Hawaiian language.

MIXTURE OF RACES
Owing to the extreme variety of the mixtures of races to be found in the Hawaiian Islands, it is expected that the interesting data on the race problems and the results of intermarriages will be obtained.

Dr. Hoag is about to publish a book on "Defective Criminal and Juvenile Delinquent" in collaboration with Dr. Edward Huntington Williams.

Phil Salvatore Runs Out on Duffy Match After Manager Signs

Jack Davis and Ted Titus Added to the Card That Will Be Staged at the Auditorium

By BOB SHAND
Phil Salvatore, the little four-rounder from Los Angeles, is a member of the old school and believes that discretion is the better part of valor. Salvatore, it will be remembered, was matched to box Jimmy Duffy at the Auditorium. Yesterday he un-matched himself thereby gyping the fans of the opportunity of seeing the Oakland lad in action. Gig Rooney, representing both Salvatore and Jimmy Brennan, hung around the West Oakland matchmaking parlors for several days looking for action for his fighters. Tommy thought Gig was a deserving young fellow so he placed both his fighters in tonight's card. The medals were entirely satisfactory to the manager and Simpson went ahead with his advertising manner. Yesterday came a telegram from Trayland announcing that the medals would have to be fattened if Salvatore were to box. Simpson weakened in the pinch and stuck another coat of gilt on the trophy. It wasn't thick enough, the reply stated. Simpson quit there and told Rooney that as far as the Shipbuilders' Club was concerned there was no such person as Phil Salvatore.

Rooney was the one who had made the match and he was made in good faith so he was not to be gyped. He was not to be gyped by the absence of one of his main events tonight. Jack Davis and Ted Titus were added to the card and the other seven bouts will go through on schedule.

Frankie Burns In Shape For Shade

Frankie Burns wound up his training yesterday for his bout with Dave Shade and the big fight is in the best of condition. Burns has been boxing regularly with Jimmy Duffy and James is very likely to be in shape for the fight. Burns is a good boxer and is expected to give Shade a good fight. The bout will mark Shade's first appearance here as a main event. Burns is a good boxer and is expected to give Shade a good fight. The bout will mark Shade's first appearance here as a main event.

Shipyard Boys To Have a Good Time

The shipyard boys will turn out en masse to see the Bill Sharpe-Nathan Thomas scrap and it promises to be a very hot one. The boys are expected to give the fighters a good time. The shipyard boys will turn out en masse to see the Bill Sharpe-Nathan Thomas scrap and it promises to be a very hot one. The boys are expected to give the fighters a good time.

Will Tangle Again

Kid Romeo and Togo Koriamia, the handsome pair who furnished many a thrill last week, will be in the ring again tonight. The boys are expected to give the fighters a good time. The shipyard boys will turn out en masse to see the Bill Sharpe-Nathan Thomas scrap and it promises to be a very hot one. The boys are expected to give the fighters a good time.

WIVES OF PLAYERS ARDENT ROOTERS

If Brooklyn doesn't win the National League pennant and the world's series it won't be the fault of these wives of some of the team's most famous players, for they attend every game, home or on trips, and root for the team and their husbands. This interesting picture was taken in Philadelphia a few days ago. Left to right: MRS. KONETCHY, wife of the first baseman; MRS. NEIS, whose husband plays right field; MRS. S. SMITH and MRS. GRIMES, whose husbands do some of the twirling.

Sox and Indians Clash In Three-Game Series Commencing Tomorrow

By H. C. HAMILTON.
International News Service Staff Correspondent.
NEW YORK, Sept. 22.—Chicago and Cleveland are facing the toughest section of the 1930 American League schedule for them. If there is a chance left for the New York Yankees to win the pennant in the San Francisco circuit it lies in the fact that the program makers last winter gave Cleveland and Chicago Western assignments with which to wind up their season. Beginning tomorrow the Sox and Indians start a three-game series in Cleveland—a trio of contests that may itself decide where the flag shall wave next year. If Cleveland wins two of these it will have a record of 33 victories and 53 defeats against 32 victories and 57 defeats for Chicago. Reverse the number of victories and Cleveland would have 32 won and 54 lost. Chicago would have 33 victories and 56 defeats.

After finishing with the Indians the White Sox play Detroit. Two games are scheduled with the Tigers in Chicago. Then they go to St. Louis to finish the season with three games with the never-easy Browns. The Indians have practically the same program. Finishing with Chicago they go to St. Louis for four games. Inasmuch as the Browns are a tough bunch to get the Sox and Indians to get to St. Louis to finish the season with three games with the never-easy Browns. The Indians have practically the same program. Finishing with Chicago they go to St. Louis for four games. Inasmuch as the Browns are a tough bunch to get the Sox and Indians to get to St. Louis to finish the season with three games with the never-easy Browns.

Athenian, Nile Golfers Busy At Claremont

The Athenian-Nile club is living up to its past reputation for good organization in their annual tournament which is being played over Claremont course today. Nothing that can be done to make the first day of the match more successful has been omitted. Claude Barton, the official handicapper, has arranged for the six or more competitors to get into four-ball foursomes. A glance at his list suggests a good deal of friendly rivalry in the four-ball play. If the day is coming all the way from Napa to have a tilt at his golfing rivals, Cushing, Johnston and Barton. Another foursome to get into four-ball foursomes. A glance at his list suggests a good deal of friendly rivalry in the four-ball play. If the day is coming all the way from Napa to have a tilt at his golfing rivals, Cushing, Johnston and Barton.

BASEBALL GOSSIP

The Tigers gained a full game on the Angels yesterday when they whipped the Oaks 5-3 while the scrubs were being whipped 4-1 by the Seals.

University Hi Squad Preparing for Game With Berkeley Hi

Football prospects at the University of California are steadily improving since the first practice, under the careful attention given the squad by Coach Fee. Some valuable material is being developed and much is expected from this year's aggregation. The teamwork at the start of the season was rather ragged, but is improving.

Babe Hollis Chucks No-Hit, No-Run Game For Richmond Elks

The Richmond Elks picked a tough battle for themselves when they accepted a challenge from the Marine Elks, but they managed to take the long end of a 2 to 0 rope. Babe Hollis pitched a no-hit, no-run game for the Elks. The game was a close one, but Hollis was able to keep the Elks from scoring. The game was a close one, but Hollis was able to keep the Elks from scoring.

Bobby Ertle Beaten By Eddie Gozeman

LOS ANGELES, Sept. 22.—Bert Colima, of Whittier, Calif., knocked out Bobby Ertle, San Francisco, welterweight, in the seventh round of their scheduled four-round match at the Vernon arena last night. A right to the jaw ended the bout. In the semi-final round, Ertle was beaten by Eddie Gozeman, a local fighter, in the first round. Ertle was beaten by Eddie Gozeman, a local fighter, in the first round.

Vigorous Hitting Is Winning for Leaders

Both the Indians and the White Sox have won their recent games through vigorous hitting, generally piling up leads early in the game. Chicago, although feeling the pinch of the loss of the New York and Philadelphia teams in winning 6 straight, cracked out 30 hits for 117 bases and scored 66 runs in their opponents' 28. Included in the attack work was 37 doubles and 14 triples.

St. Mary's to Open Season With Sailors

Plenty of Good Material at the Disposal of the College Coach

Under the tutelage of Coach Billy Hollander, the St. Mary's College football squad is rapidly rounding into shape for its game Saturday with the Mare Island Sailors. The showing the team made against the Olympic Club last Saturday warrants the prediction that they will make trouble for the best eleven in the State before the season ends, and this prediction has caused no little anxiety around the Berkeley campus. The game with the sailors will be the initial test for the Saints and will serve as a line of the kind of material at the disposal of the college coach. With the slightest breaks in the game coming his way, Hollander should have no difficulty in turning out a winner for the Oakland college, for he has the largest squad in the history of St. Mary's. The team is made up of a large number of the wisecracks around the college for claim it is a likelier looking outfit than that which the State intercollegiate championship in 1917. The line, which has been the weak point in the Red and Blue teams, looks particularly promising this season. "Chet" Brown, veteran guard, has been a star in the line, and with "Archie" Meekin, another veteran, at guard and Keely at end, one side of the line will be mighty tough to penetrate. On the other side, "Tiny" Giffen, Fresno High School product, who tips the scales at two hundred and thirty, will take care of tackle. Bob May will fill in at guard and Valencia will play at end. This combination, with either Harris, formerly of the Seals, or Laramore, formerly of last year's Freshman squad, at center, will make a line that will be the necessary weight coupled with more than the average speed. Of course, these positions are only tentative and Hollander may start altogether a different line-up in Saturday's contest. Which line will the squad like? Coach Hollander, Dela-hanty, Corrigan and Nunes, all college or high school stars, will have the above mentioned men in line to be displaced. The backs will be picked from the following group: "Bruiser" Healey, Malloy, Lane, Nordin, Decker, Miles, Kaneane and Ozerick. Malloy has been putting in impressive style in the line, and with his speed, from all indications, Hollander will have no trouble making his line of plunkers and speed burners, for he has plenty of them in his squad. The game Saturday will be a hard one for St. Mary's College grounds and bits fair to attract a great crowd of alumni and football fans.

Vitt Grays Defeat Fort McDowell Team

The Vitt Grays won another game Sunday when they defeated Fort McDowell and took the soldiers into camp 2-1. Vitt Grays won the game by a score of 2 to 1. The Vitt Grays won the game by a score of 2 to 1.

Frank Guigni Shuts Out Napa Red Sox

VALLEJO, Sept. 22.—The Napa Red Sox baseball club had no match for the Mare Island Shipbuilders at Beach Park on Sunday afternoon, and the scores carried off the honors by Napa. Frank Guigni pitched a perfect game, shutting out the visitors, while Frank Guigni pitched a perfect game, shutting out the visitors, while Frank Guigni pitched a perfect game, shutting out the visitors.

SKIN WITHOUT BLEMISH IS EVERY WOMAN'S WISH

edies, such as lotions, salves, ointments and other applications to the surface of the skin.

Disfiguring Pimples Cause Much Embarrassment

How often do we see women who would really be good looking but for some unsightly facial blemish that spoils her complexion and her chance of being considered attractive.

A clear, ruddy complexion is an unmistakable sign of a vigorous, healthy vitality, while pimples on the face indicate a depleted, rundown condition of the system.

A healthy, attractive skin is practically within reach of every woman, but it cannot be obtained from the use of cosmetics or so-called skin foods. First of all, it must be realized that the condition of the skin depends upon the condition of the blood, and no one can have a clear, ruddy, healthy skin unless the blood is robust and healthy and free from all impurities.

Tigers From 36th Ave. Claw Up Hawthorne

The thirty-sixth Avenue Tigers were real Tigers Sunday when they won and moved into third place with a 5 to 0 victory over Hawthorne. The Tigers were real Tigers Sunday when they won and moved into third place with a 5 to 0 victory over Hawthorne.

Bobby Ertle Beaten By Eddie Gozeman

LOS ANGELES, Sept. 22.—Bert Colima, of Whittier, Calif., knocked out Bobby Ertle, San Francisco, welterweight, in the seventh round of their scheduled four-round match at the Vernon arena last night. A right to the jaw ended the bout. In the semi-final round, Ertle was beaten by Eddie Gozeman, a local fighter, in the first round. Ertle was beaten by Eddie Gozeman, a local fighter, in the first round.

Vigorous Hitting Is Winning for Leaders

Both the Indians and the White Sox have won their recent games through vigorous hitting, generally piling up leads early in the game. Chicago, although feeling the pinch of the loss of the New York and Philadelphia teams in winning 6 straight, cracked out 30 hits for 117 bases and scored 66 runs in their opponents' 28. Included in the attack work was 37 doubles and 14 triples.

BLUE AND GOLD TEAM WILL TACKLE OLYMPICS SATURDAY AT BERKELEY

Andy Smith Holds Secret Practice for California Football Players

By DOUG MONTELL
UNIVERSITY OF CALIFORNIA, Sept. 22.—With the first real collegiate football game of the season on tap this coming Saturday on California Field the sporting public is beginning to take an active interest in the doings of the pigskin booters of the coast colleges. The card reads thus: Olympic Club vs. University of California. There seems to be little doubt in the minds of some nine thousand odd Californians that the Bruins are due to have one of their most successful seasons. Interest in King Football at the State University runs higher this year than at any time in recent memory. In fact so strong is the interest that Chief of Staff Smith deemed it advisable yesterday to inaugurate secret practice on all days except Wednesday. Lively scrimmage will entertain the rooting section on each Wednesday, but outside of that it is all hard work.

Opinion is about equally divided as to the outcome of the Bears against the "O's." The Olympic Club are reputed to be considerable football team. Evidence of their improvement and strength is offered in their 26-13 victory over the Mare Island sailors last Saturday. In fact, the club line-up remained virtually unchanged. However, Jack Spaulding is not so sure of the club's strength. He is not so sure of the club's strength. He is not so sure of the club's strength.

The addition of Dobson, University of Nebraska center, half back of last season, has provided the club with a much-needed line plunger and an all-around backfield. The club line-up remained virtually unchanged. However, Jack Spaulding is not so sure of the club's strength. He is not so sure of the club's strength. He is not so sure of the club's strength.

Jack Spaulding, who has been a star in the line, and with "Archie" Meekin, another veteran, at guard and Keely at end, one side of the line will be mighty tough to penetrate. On the other side, "Tiny" Giffen, Fresno High School product, who tips the scales at two hundred and thirty, will take care of tackle. Bob May will fill in at guard and Valencia will play at end. This combination, with either Harris, formerly of the Seals, or Laramore, formerly of last year's Freshman squad, at center, will make a line that will be the necessary weight coupled with more than the average speed.

Of course, these positions are only tentative and Hollander may start altogether a different line-up in Saturday's contest. Which line will the squad like? Coach Hollander, Dela-hanty, Corrigan and Nunes, all college or high school stars, will have the above mentioned men in line to be displaced. The backs will be picked from the following group: "Bruiser" Healey, Malloy, Lane, Nordin, Decker, Miles, Kaneane and Ozerick. Malloy has been putting in impressive style in the line, and with his speed, from all indications, Hollander will have no trouble making his line of plunkers and speed burners, for he has plenty of them in his squad.

The game Saturday will be a hard one for St. Mary's College grounds and bits fair to attract a great crowd of alumni and football fans. The game Saturday will be a hard one for St. Mary's College grounds and bits fair to attract a great crowd of alumni and football fans.

Frank Guigni Shuts Out Napa Red Sox

VALLEJO, Sept. 22.—The Napa Red Sox baseball club had no match for the Mare Island Shipbuilders at Beach Park on Sunday afternoon, and the scores carried off the honors by Napa. Frank Guigni pitched a perfect game, shutting out the visitors, while Frank Guigni pitched a perfect game, shutting out the visitors, while Frank Guigni pitched a perfect game, shutting out the visitors.

POLES TAKE 1000. REDS PRISONERS, THIRTEEN GUNS

By LUCIEN JONES.
Correspondent of the International
News Service and London Daily
Express.

WARSAW, Sept. 21, via London, Sept. 22.—Anticipating a new Russian offensive on the northern end of the Polish battlefield, the Poles have delivered a strong attack north of the Pripiet district, capturing 1000 red prisoners and thirteen machine guns, said a despatch from the battle zone today.

Victory, however, was still in progress in the Prushany sector of the line at last reports.

Polish successes on the southern end of the front are being extended.

The Russo-Polish peace conference, which was resumed at Riga on Tuesday, was marked by a more friendly tone than existed at Minsk. It was reported from Riga.

Russians driven back. BY INTERNATIONAL NEWS SERVICE. LEASED WIRE TO TRIBUNE.

PARIS, Sept. 22.—The Poles have opened an offensive against the Russians on the northern end of the Polish fighting line and a potent battle is raging over a front of 30 miles, said a Soviet war office communique wirelessly from Moscow today. The Russians have been driven back at some points. The communique said:

"In the sector of Gredno the enemy has begun an offensive. Our troops took up new positions along the Obukhov river."

"There is severe fighting north-west of Prushany (150 miles north-east of Warsaw). We occupied localities near Volkovsk and Gehrath."

"Fighting continues in the Alexanderovsk sector of the Crimean front."

RUSS WANT PEACE. BY UNITED PRESS. LEASED WIRE TO TRIBUNE.

PRAGUE, Sept. 22.—Russia wants complete peace, Adolph Joffe, head of the Soviet commission, told the Polish delegation at the opening of their conference here.

"Russia wants a peace without victory," Joffe said. "He said it was hoped a direct peace could be negotiated with Poland and that a separate agreement could be reached with the allies."

John Dombrowski, head of the Polish delegation, declared Poland was tired of warfare and greatly desired peace.

SAN FRANCISCO OFFERS TO SELL EAR FOR \$10,000

SAN FRANCISCO, Sept. 22.—It may take an "eye of an eye" but \$10,000 will buy an ear, said Shepard E. Baker of San Francisco, at any rate, has offered to sell his left ear for that amount and guarantee delivery in good condition—no mutilation or anything like that included.

He has made the offer to Frank S. Quenana, now in New York, son of a Cuban planter, who lost his own left ear in an accident and who was reported to be in the market for a new one.

Brother of Man Held Is Sought by Police

Ernest Kashouch, 314 Castro street, who, according to the police, was the driver of the car which ran down and seriously injured H. A. Wiedemann, Monday afternoon, at Fortieth street and Broadway, is sought by the police today.

Frank Kashouch, brother of the driver of the car, is being held in the city prison. The police believe he was with his brother when the accident occurred.

The automobile which struck Wiedemann continued on its way without stopping to give aid to the injured man.

WASTE TO LECTURE. The Missions and the Early History of California, is the subject announced for an address by Judge William H. Wages, presiding justice of the district court of appeals, at a meeting of the Knights of Columbus tonight at their hall, 660 Thirteenth street. The lecture is to be illustrated with lantern slides and will be open to the public.

ALUMNI TO MEET. Golden Gate Alumni Association of the University of Illinois will hold a picnic supper Saturday from 6 to 9 p. m. in Live Oak Park, Berkeley. Former residents of Illinois, faculty and students of the University, are invited to notify Miss Stella Bennett, 2629 Le Conte avenue, Berkeley, telephone Berkeley 44155, of their attendance before Friday.

Noodles Fagan Entertains Tribune Newsies Tomorrow

MRS. NOODLES FAGAN, wife of the world-famous newsie, who tomorrow night will help entertain 500 Oakland TRIBUNE carriers at a theater party in Pantages theater.

Five Hundred Carriers to Be Guests of Famed Carrier at Theater

Here he is, fellows—Noodles Fagan, world famous newsie and friend of 30,000 news boys. Mrs. Fagan and clever little Mary Fagan, have invited The Oakland TRIBUNE carriers to be his guests at a Pantages theater party tomorrow at 7:30 p. m. sharp.

Five hundred youngsters whose business is to deliver Oakland TRIBUNES every night will throng the Twelfth street playhouse to give their host and his wife and pretty eight-year-old daughter the hilarious reunion here. Whenever Fagan comes to town he gives a party to the newsboys. He puts on his clearest stunts, introduces his wife and daughter to

his small friends and nobody knows who has the best time—the boys or Fagan. The entire Pantages bill will be presented in addition to the Fagan features.

Noodles Fagan is said to have the longest list of friends in America. For ten years he has made it a business to chat to at least 3000 newsies every season. He was once a newsie himself and learned some interesting things about life. Some of these he will tell tomorrow night.

Every TRIBUNE carrier must prepare for work, but did not arrive at her place of employment. Both mothers expressed the fear that the two girls were in company with two young men who had previously expressed their desire that the four

down for once," she said. "I can't find any key for it. But I suppose there is one over at the second-hand store."

"I'll be dropping over to Crest Haven tomorrow," Dicky offered good-naturedly. "If you'll give me the name of the place I'll stop in and ask about it."

"That's awfully good of you," Lillian returned, as coolly as if there were anywhere in existence the shop of which she had talked so fluently. "I'll just take you up on that. I've got the address somewhere," she fumbled in her dress. "No, I must have dropped it. But I'll hunt it up and give it to you tomorrow. Thanks awfully, old chap."

"I'm glad to see you duly appreciate my exertions in your behalf," he returned with smiling grandiloquence. "But nothing is too great for me to attempt for you. By the way, Madge, I just saw your friends next door returning from another joy ride. I could hear Mrs. Durkee's excited and Alf's bellow clear over here. The dear majah's taken them out again. That's going some, two nights in succession. Wonder if the old boy's shining up to Edith? I'd better put a face in her ear to try to land him. He's worth three or four millions, isn't he?"

"I haven't the slightest idea," Lillian replied, a bit shortly. "I felt vaguely irritated, and yet I couldn't tell you why. Surely this intimation that Maj. Grandland might be interested in Edith Fairfax was nothing to me."

"I was looking squarely at Dicky as I spoke, so I caught fairly full quick, questioning, appraising glance he threw at me. His eyes held mine for an instant, then he laughed, a sound that held a disagreeable inflection, but a face in her ear to try to land him. He's worth three or four millions, isn't he?"

"I hope I haven't jarred you, old dear," he said. "Well, stretching his arms, 'me for the hay, pronto. You girls can gossip over your fool purchases without keys until morning if you want to. Good-night!"

continued Tomorrow.

DICKY BRINGS NEWS
"I'd give you about two-thirty-seven for it," Dicky drawled provocatively, then he put his hand on the cover of the desk as if to lift it. "How does she open?"

Lillian smiled ruefully, while Lillian tingled with apprehension. How would she manage this unexpected question?

"That's where smarty Lil fell

Clerks on Hike Boost Greeters' Candidate
Fred K. Hollister and Wayne Young, clerks at a Seattle hotel and members of the Greeters of America, national Hotelmen's Association, stopped at Hotel Oakland yesterday on a lap of their national campaign for Louis Lucas for next national president of the Greeters.

The two men are hiking from city to city in overalls, and today turned their steps toward Los Angeles, from where they will lay their course across the desert through Arizona.

Leigh Frier, national secretary of the Greeters, a Denverite, is at Hotel Oakland on a vacation trip.

COAL Famine Looms
SEATTLE, Wash., Sept. 21.—A serious shortage of domestic and steam coal is in prospect for this state, as the first result of the threatened strike of 3000 coal miners set for Thursday morning, according to mine operators in conference here today.

BAR TO DISCUSS PROPOSED LAWS

Reports on public utilities franchises, discussion of a recommendation for a state constabulary, and acceptance or rejection of a report in opposition to the community property law which is to go on the ballot in November will make the meeting of the California Bar Association, at Santa Cruz on Thursday, Friday and Saturday one of the most important ever held by the organization.

As their opposition to the community property law brings them in dispute with committees of the women's clubs who are urging the measure, and as there is also organized opposition to the constabulary proposal, spirited debates are in prospect.

HOOVER AIDE TO TALK.
The annual address will be delivered by Prof. M. F. Kirkwood, of the Law Department of Stanford University. His subject will be "The Ever Increasing Law Reports."

LAW OPPOSED.
The defeat of the proposed Community Property Law is recommended by the special committee on that subject, of which Perry Evans of San Francisco is chairman, on the ground, first, that the husband's present rights of testamentary disposition should not be curtailed to the extent proposed in the statute now before the people on referendum; and second, because of the injustices and uncertainties unnecessarily created by the act in its present form.

FREIGHT TRAIN DERAILED.
MEEHLE, Colo., Sept. 22.—A Denver and Rio Grande freight train was derailed today at Taylor's Point. Eleven cars left the tracks, and were considerably damaged. No one was injured.

FILM-AMBITIOUS GIRLS MISSING

President Bradner W. Lee, of Los Angeles will deliver his annual address at the opening session. His topic will be "Some Problems of the Hour and the Responsibilities and Duties of Lawyers Concerning Them."

Captain T. C. Gregory of San Francisco, aide to Hoover in Belgium and instrumental in the overthrow of the Bela Kun government in Hungary, will speak on "Beating Back Bolshevism."

Fear that four youthful movie stars have set out together upon the path that leads to movie land with nothing but a few dollars and an abundance of ambition, is expressed in a report to the Oakland police made by the mothers of the two girls, Bella Rocco, 16, and Evelyn Joseph, 17.

Mrs. M. E. Joseph, mother of Evelyn, who lives at 2807 Hannah street, reported the disappearance of her daughter to the police this morning. A short time later Mrs. Elizabeth Stone, 640 Pine street, reported that her daughter Bella was missing and that when last seen she was with the other missing girl.

The missing girl is 16 years old, day for work, but did not arrive at her place of employment. Both mothers expressed the fear that the two girls were in company with two young men who had previously expressed their desire that the four

PORCH PARTIES POPULAR WITH OKLAHOMANS

CHICAGO, Sept. 22.—"I just set my teeth and tried to forget him high up I was," said Mrs. W. W. Hennington of Minneapolis, who returned to the Republican women's headquarters here after a trip to Oklahoma with the flying squadron of women speakers.

When she got to Okmulgee, Okla., she found the train for the next station had gone, so she found an airplane and dropped in on the women of that state. She said Oklahoma is turning more and more to the Republican party and porch parties are popular there.

It is the belief of the mothers that the boys did not have sufficient money with which to pay for transportation to the southern city, and that they may have set out on foot, or that they may have succeeded in arranging to travel with automobilists, with whom the boys are acquainted.

The police have wired authorities at Los Angeles and way points to be on the lookout for the party.

OHIO BALLOON INDUSTRY GROWS

ASHLAND, Ohio, Sept. 22.—It used to be that all toy balloons were made in Europe, largely in Germany. Today Ohio produces between 50 and 75 per cent of this nation's entire output of this toy, or about 1,500,000 daily.

About 2500 gross, or nearly one-fourth of Ohio's daily output, are made here. Other Ohio toy balloon factories are located at Barberton, near Akron, Cleveland, Kenmore, Lorain, Mansfield, Garfield, Ravenna, Wellington, Willard and Wooster.

Ashland leads the entire world in the manufacture of these balloons. Toy balloons and squawkers made here are sold in Europe and in the Far East.

Besides being a plaything for the children they are used for testing air currents in aviation fields, for decorations at banquets, as an advertising medium and for other purposes.

Ford

THE UNIVERSAL CAR

Reductions in Prices of Ford Products

The war is over and war prices must go. Effective at once, Ford cars, trucks and tractors will be sold, F. O. B. Detroit, at the following prices:

Roadster	\$395
Roadster with self starter	465
Touring	440
Touring with self starter	510
Coupe	745
Sedan	795
Chassis	360
Chassis with self starter	430
Truck Pneumatic	545
Truck Pneumatic with self starter	615
Tractor	790

The Ford Motor Company makes this reduction in the face of the fact that they have on hand immediate orders for 146,065 cars and tractors. The company will suffer a temporary loss while using up their material bought at high prices.

We are willing to make sacrifices in order to bring business back to going conditions as quickly as possible and maintain the momentum of the paying power of the country.

Henry Ford says: "The war is over and it is time high prices are over. There is no sense or wisdom in trying to maintain an artificial standard of values. For the best interest of all, it is time a real practical effort was made to bring the business of the country and the life of the country down to its regular pre-war standard."

We are at your command with regular Ford efficiency, service and eagerness to fill your orders.

WEATHER FORECAST

Oakland and vicinity—Tonight and Thursday fair except cloudy and foggy tonight and in the morning; fresh westerly winds.

Northern and Southern California—Tonight and Thursday fair except cloudy and foggy tonight and in the morning; near the coast; moderate westerly winds.

threatening; moderate winds, mostly southerly.

Clara Valley—Tonight and Thursday fair except clouds in the morning; moderate winds, mostly westerly.

San Joaquin Valley—Tonight and Thursday fair; moderate north westerly winds.

Evadito—Tonight and Thursday unsettled and occasionally threatening.

Washington and Oregon—Tonight and Thursday occasional rain; fresh southerly winds.

Idaho—Tonight and Thursday occasional rain.

Summary—A large high pressure area, central over New England, controlled the weather in the eastern states. Barometric pressure was relatively low over the Rocky Mountains. Heavy rain has fallen quite generally throughout the West. Oregon, Idaho and extreme northern California. A tropical storm is approaching the coast of Mexico. A heavy rain has fallen in that section with as yet no strong wind. Tomorrow's rain is expected in the northern Nevada, southwestern Idaho and Idaho generally in Colorado, Wyoming and Montana. The outlook is favorable for rain tonight and Thursday in the north and for generally fair weather in the south Pacific states.

[illegible]

Per Acre

The total outstanding indebtedness secured by a direct tax lien on all the lands in the famous Turlock Irrigation District. This tax lien ranks ahead of all first mortgages, including those by which Federal Land Bank Bonds are collaterally secured.

Turlock Irrigation District Bonds are exempt from all

Federal income taxes, as well as all State and local taxes in California. The bonds are a legal investment for savings banks and trust funds in California.
